

Description

IP KVM Switch

MODEL : **KVM101P**

Single Port KVM over IP Switch

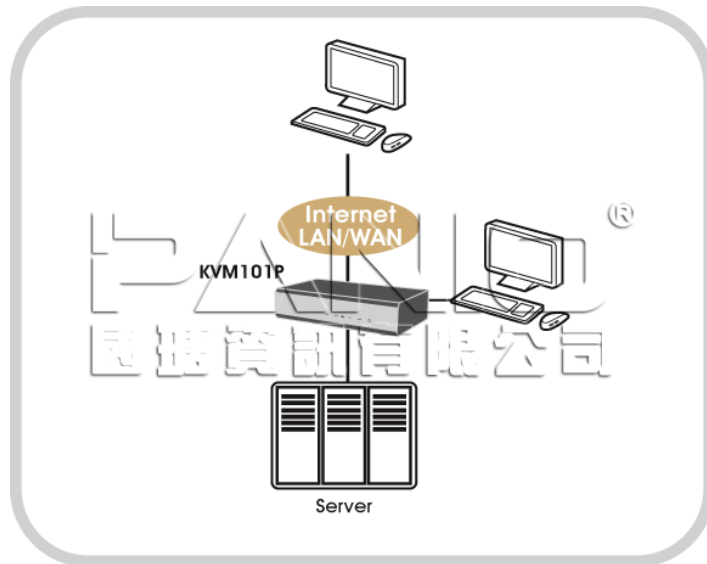

Made in Taiwan

The KVM-over-IP allows you to control one or many computers at local server site to remote site via the Internet. The IP-KVM provides convenient, remote KVM to access and control computers via LAN or Internet, and a non-intrusive solution for remote and control. It captures, digitizes, and compresses video signal and transmits video signal from a remote computer with signal of keyboard and mouse.
